SCHOLASTIC

Master Degree
kakatiya University

12/2020 - 09/2022   *Warangal*

Course
- Master Of Computer Application

Bachelor Degree
Siddhartha Degree And PG College

09/2017 - 10/2020   *Hyderabad*

Course
- Bachelor Of Computer Application

PERSONAL PROJECTS

Connecting Social Media To E-COMMERCE: Cold-Start Product Recommendations Using Microblogging Information (07/2022 - 09/2022)
- In recent years, the boundaries between e-commerce and social networking have become increasingly blurred. we propose a novel solution for a cross-site cold-start product recommendation, which aims to recommend products from e-commerce websites to users at social networking sites in "cold-start" situations, a problem which has rarely been explored before.

Online Doctor Appointment System (03/2020 - 05/2020)
- I had done this project using the java platform. Using these web application, patients will be able to fill out the online form in just a few seconds and be able to book appointments with a Doctor. It will also enable you to upload your lab results such as x-ray copies, health history, etc which can be viewed by your referred doctors.

Cinema Room Manager (02/2020 - 03/2020)
- Cinema has been a part of the entertainment industry for a long time: a good movie is a way to escape reality and live through a variety of emotions. The best cinema experience you can get is probably in a cinema theatre. In this project, I created an application that helps manage a cinema theatre: sell tickets, check available seats, see sales statistics, and more.

Coffee Machine Simulator (01/2020 - 01/2020)
- In this project, I worked on programming a coffee machine simulator. The machine works with typical products: coffee, milk, sugar, and plastic cups; if it runs out of something, it shows a notification. You can get three types of coffee: espresso, cappuccino and latte. Since nothing's for free, it also collects the money

SKILLS

Python · SQL (MySQL) · Hadoop · Hive · Data Warehousing · Data Modelling · Docker · AirFlow · NoSQL(cassandra,MongoDB,HBase) · Sqoop · Big Data · AWS · Java · J2EE · HTML · CSS · Git · DATA STRUCTURES · OOPS · COMMUNICATION SKILLS · ANALYTICAL SKILLS · FAST LEARNER · LEADERSHIP SKILLS · PROBLEM SOLVING SKILLS
